

Electronic Water Level

Electronic Water Level 50061

www.spoton.com.au

All of the Spot-on Powerline range of lasers have Class II 'Blink Safe' lasers that meet AS/NZS Standards

Why Buy a EWL?

Simple to operate
One person operation
Measures height differences in 'blind' areas

Durable and maintenance free

The EWL suits:
Re-stumpers
Landscapers

Electronic Water Level

Code: 50061

The EWL is the first levelling instrument of its kind to allow 'one person' operation and around corners.

With +/-2mm accuracy (zero level) the EWL covers up to +/-2.5m vertically over a 48m diameter.

The EWL directly displays the vertical measurements on a large easy to read LCD screen unlike an optical or laser level.

The hand unit (digital display) can be used vertical or flat and the unit is durable and requires little maintenance.

The EWL's display runs on one 9V battery and will display the measurement in mm or inches.

Operating temperature: 0°C to 35°C.
